

Wing Mirror Style - Camera Housing

Key Features

- Protects the camera from aggressive bus-washes and tree strikes.
- Provides a low-pressure air buffer to keep camera window clear of water and dirt.
- Acts as a sun / heat shield in hotter climates.
- Removable outer shell allows housing to be colour-coded to vehicle livery.
- Pre-installable base allows for simple accurate camera set-up at installation.
- Galvanised steel construction
- Durable double powder-coated finish.
- Protects the cable gland entry point from damage.
